AAC'S AGILITY CLASS DESCRIPTIONS

As of January 1, 2009, please note that AAC has adopted rule changes. Of particular note, are the criteria for the games classes. Please take some time to read the eligibility requirements described below, before completing your entry to this trial.

~ For complete listings & changes consult the AAC website at www.aac.ca~

Quick Summary of Changes

Starters: Will now have similar rules for refusals as Advanced dogs in Standard, Jumpers and Team Relay classes. Refusals will not be faulted on weave poles, contact equipment or the table. As well, refusals will not be faulted in the closing sequence in Snooker or in the mini gambles or closing gambles in Gamblers. Three (3) refusals will result in Elimination in Advanced and Masters only.

Team Relay: No baton will be required. Two separate boxes, labelled "A" & "B", instead of one. The second team must stay in their box ("B") until the first team has completed their half of the course and are in their box ("A"). Faults will now include if the second team leaves their box early (10 faults) and if dogs enter the exchange box of the other dog/handler team (20 faults). As of January 1, 2009 Team Relay is no longer part of the ATChC requirement.

Obstacle Repetition: Once the judge rules that a handler has deliberately directed the dogs to repeat an obstacle that has already been performed, the judge will signal the timer to blow the whistle at the Standard Course Time (SCT). Once the whistle is blown, the dog/handler team is expected to leave the ring.

Obstacles: Effective June 1, 2007, slats will no longer be allowed on the dog walk or teeter. Effective July 1, 2009, the chute's fabric will be shortened from 12 to 8 feet as measured from the point of attachment to the opening and striping on weave poles must be painted rather than taped.

Re-runs: If an obstacle was set at the wrong height it will be up to the judge's discretion if the dog will re-run by determining if the incorrect height impeded the dog's performance. Except for approved re-runs, a dog shall never run the same course twice (this includes a dog running a course for a Junior Handler and as a regular run).

Junior Handlers: The Junior Handlers program will be expanded to allow juniors to run in and earn qualifying scores in all classes, including games. As is currently the case, juniors will have veteran times and may run at a height lower than that at which the dog normally competes, and can accumulate their qualifying scores with different dogs.

Agility Classes Descriptions and/or Changes

Regular Classes: These classes are open to all dogs, 18 months of age or older, as described within the current rules of the Agility Association of Canada.

Specials Classes: These classes are open to all dogs but are intended for dogs that are of a size or stature which limits their jumping ability. A dog may no longer compete in Regular classes after being entered at an official trial in any Specials class level, except that they may move to Veterans.

Veterans Classes: These classes shall be for dogs seven (7) years of age or older that are currently competing in any Regular Class and for dogs five (5) years of age or older who have competed in the Specials Class level for a minimum of twelve (12) months.

Starters Games Classes: Effective January 1, 2009, moving out of Starters Games classes into Advanced now requires two (2) qualifying scores under two (2) different judges.

Advanced Games Classes: Effective January 1, 2009, the Advanced Games classes are open to dogs that have earned two (2) qualifying scores in a particular Starters level game under two (2) different judges. Moving out of Advanced now requires three (3) qualifying scores under two (2) different judges.

Masters Games Classes: The Masters Games classes are open to dogs that have completed three (3) qualifying scores at the Advanced level for a particular game under two (2) different judges.

Standard Class: The Standard Class shall be for dogs that have not earned the associated standard title for their level (ADC, AADC, or MADC). A dog must achieve three (3) qualifying scores (no course or time faults) under two (2) different judges in their respective level, at an AAC Sanctioned Trial, to be awarded the Standard class title (ADC, AADC, or MADC).

Gamblers Class: This game demonstrates the handler's strategy and the dog's ability to work at a distance from the handler. The object of the game is to accumulate as many points as possible during the opening sequence and successfully complete the gamble.

Jumpers Class: This game demonstrates a dog's natural jumping ability.

Snooker Class: This game demonstrates the handler and dog's versatility as they work together against the clock. The object of the game is to accumulate as many points as possible in the opening and closing sequences within the allotted time.

Team Class: Effective January 1, 2010 Team Relay is now a single-level class with a title structure equivalent to Steeplechase. This is a time plus 5 fault event where a maximum of 5 Faults shall be permitted for a qualifying score if the time plus faults score is equal to or less than the SCT determined by the judge.

Steeplechase: This game demonstrates the dog's ability to run and jump at high speeds while maintaining control on the A-Frame and weave poles. This is a time plus faults event where the combined time-plus-faults score must be equal to or less than the SCT as determined by the judge.

AAC Challenge: Effective July 1, 2009 Challenge will be open to dogs competing at the Masters level in Standard classes. Required equipment will be the same as in Standard courses with the possible addition of the table and/or broad jump, but course design will emphasize more technical handling challenges than would be seen in a Standard or Steeplechase class. Standard course time will be determined after each height class runs by multiplying the fastest clean-run time achieved in that height class by 1.2.
